CATTLE IN LIGHT DEMAND AND SELLING AT LOWER PRICES.

Hogs in Moderate Request and Lower -Sheep Active and Steady-Condition of Other Markets.

UNION STOCKYARDS, INDIANAPOLIS, Jan. 23.-Cattle-Receipts, 900; shipments, 300. Comsined receipts of cattle for five days indicate a corresponding time a year ago. The receipts toabout the same as a year ago. There was a very good variety of grades represented, but, as usual that could be classed as strictly top kinds. The quality generally, however, was much the same as the average represented heretofore this week. The market opened with the demand principally from local sources, and, although there was limand subsequently practically all kinds of cattle were seiling lower than yesterday. Salesmen, that any improvement in the market yesterday was lost to-day, but it was generally agreed that values were as high as those current a week ago, and occasionally it was believed that sales vere 10c higher than at that time. The market continues weakest for the lower grade stock, and it is difficult to consummate sales of that class at current prices. The demand for stockers and feeding cattle was hardly up to expectaions at this time in the week, but salesmer ted a steady market for the best selection Late in the day it was evident that the deman for fat cattle from all sources had been wel supplied, and the closing market was quiet and weak. It was evident at a late hour that an outlet could not be found for all the supply. The top prices paid were \$4.90 for steers, \$4.50 for helfers, \$4 for cows, \$3.75 for cuils and \$8 for calves. Quotations:

The rivals of hogs thus far this week indicate a 9,000 compared with the same time week, and very little change compared with the corresponding time a year ago. The receipts to-day were nearly 4,000 smaller than a week ago, and about 2,000 larger than a year ago. The market opened with only a fair demand from outside sources, but there was a reason

ably good inquiry from local houses, and hogs for which there was any competition sold on the opening at almost steady prices. The tenhowever, was weaker, with occasional sales 5c lower, and subsequently, when it was evident that packers would not have strong evident that packers would not have strong opposition, they naturally were standing pat for lower prices. Salesmen were not inclined to accept offers, but were finally persuaded to take about 5c less than yesterday, in most cases. There seemed to be no particularly class favored, but if any difference the hogs of good weight and quality continue to show the most strength. After a basis for operations had been well established the market was as active as could be expected, considering the number of buyers in the field, and a satisfactory clearance was finally made, but the last sales indicate that a very weak feeling prevailed in the market. In a regular way the range in prices to-day was from \$6.15 to \$6.85, and the bulk of the supply sold at \$6.30@6.75. One small lot of fancy hogs, averaging 300 lbs, sold to a local packer at \$6.95. Quotations:

Sheep-Receipts, 500; shipments, 150. The marketing of sheep and lambs continues of fair volume, the receipts thus far this week being over 1,500 larger than the same time last week, and nearly 700 larger than the same time last week, and nearly 700 larger than the corresponding time a year ago. The receipts to-day were the smallest since Monday, and show a decrease of about 100 compared with a week ago and 300 compared with a year ago. The demand from outside sources was probably not quite as extensive as it has been heretofore this week, but there was a little better demand from local there was a little better demand from local butchers, and altogether the outlet was sufficient to exhaust the supply. Prices in some cases, especially for the undergrade stock, were only fairly satisfactory, but the best selections in their class sold usually at steady prices. The highest price reported for lambs was \$5.85, and other sales ranged from \$5.25 to \$5.75. Fancy yearling sheep sold as high as \$4.50, but \$4 was the top for old sheep, and culls to good kinds

Fears Engendered by Vanezuelan Situation-Heavy Exchange Market Problem-The Bank Statement.

NEW YORK, Jan. 23 .- To-day's stock market was entirely colorless again, and the level of activity fell below that of yesterday, which was the lowest since the opening of the year. News developments were without perceptible effect. There were some professions of anxiety over the Venezuelan situation, accompanying the opening selling, but this did not prevent the market recovering when a demand for Erie developed. The bewildered room traders seemed eager for any sign of leadership and ready to tail on to any nascent movement. None of the day's movements was long lived. It is possible that the Venezuelan situation is an influence on this dullness, but the causes of the hesitation of the speculation probably are deeper seated and have to do with the general outlook over a

long future range. The signing yesterday of the Panama canal treaty brings into definite form the excharge problem involved in the requirement for the payment for account of the United States government to the Panama Canal Company of \$40,000,000. It has been suspected for some time that preparations were making in the exchange market to meet this requirement, but exchange authorities express the opinion that the symptoms attributed to this are due to other causes and that the arrangements for the transactions are yet to be made. The recollection of the disturbance to the exchange market caused by the payment to Spain of the \$20,000,000 indemnity provided by the treaty of Paris, gives great interest to the present transaction, especially on account of the delicate balance now maintained in the exchange market.

The strength of copper both in London and here was a help to Amalgamated Copper. The renewed buying of Erie gave some hope of a resumption of activity by pools, but the market made little response. St. Louis & San Francisco relapsed sharply with denials of yesterday's deal rumors. The languid demand for stocks made an advance seem so hopeless that the traders turned to the short side of the market and prices fell sharply below last night in the active selling movement of the last hour. The decline was accompanied by rumers of infavorable Venezuelan news received at

The large gains in cash by the banks both from the interior and on subtreasury operations promised a rise in reserves of nearly \$7,000,000. There may be large loans to figure in that item of the banks. There was a report of \$35,000,000 loan having been negotiated by the Pennsylvania Company current this afternoon. The market closed steady, but near the lowest. Bonds were irregular. Total sales, at par value, were \$2,840,000. United States bonds were unchanged on call.

LOCAL WHOLESALE TRADE

COMMISSION ROW MERCHANTS HAD A VERY BUSY DAY.

Eggs Are More Plentiful and Butter Is Easier, but Poultry Is Scarce and High-Strong Cereal Markets.

Friday, as usual on Commission row, was a busy day. Retail merchants who draw their supplies from this market were liberal buyers and large shipments fruits and vegetables have been made since the milder temperature came in. Irish potatoes are fast movers, but stock held so ample that prices are well sustained. Choice apples are selling at high figures, but there is a medium grade that sells at \$2 to \$2.75 a barrel which sells readily. Oranges are easy and are beginning to move much more freely. Few lemons are selling. Cabbage, onions and green stuff of Southern production are on the market and are selling more readily. The produce market presents unusual conditions. Poultry is very scarce, receipts light and prices strong. Receipts of eggs, fresh stock, have increased somewhat the last few days. Little is heard about storage eggs, the supply of fresh stock furnishing the market. Butter is easier, but prices concondition. The demand for sugars, coffees, canned goods, dried fruits and fancy groceries is increasing. Meantime, as for some time past, price fluctuations are but slight. The hide market continues dull and easy, but leather is very firm, hough no advances have as yet been established. Iron and steel merchants report trade as improving and fully up to that of January of 1902. They do not look for a heavy trade, however, until late in February or March. Flour is strong in the home market, but prices are much the same as for some days passed. In Eastern markets, on account of the slow freight movement, prices have advanced. In other cereal products there is a free movement, with oat meal and corn meal easier in tone. In other lines of trade there were

New York Evening Post.

Roosevelt has shown rare courage in mainpeople by his action at Indianola and at Charleston, it does not follow that their interests are advanced by again bringing the race issue to an acute stage. Like the Filipinos, they are the victims of injustice, but the practical question is, What policy is best calculated to remove the injustice and put them on the footing of equal rights and equal citizenship? We have advised the Filipinos to submit to the authority of the United States and trust to the love of the end, not by the arts of war, but by those of peace. So, too, we believe that the pathway to the political rights and all with the sentiment, prejudices, pride of the whites among whom they live, but by living the kind of lives and practicing the arts taught by Booker Washington and his colleagues. We abate not a jot of our demand that the Filipinos, like the children of Israel, be allowed to go free. We insist as strongly as ever that equal rights be granted to the colored people of both sections of the Union—we have still much to learn on this subject in the North,

ACTIVE TRADE IN WHEAT

EARLY BULGE IS LOST, AND THE GRAIN CLOSES LOWER

Corn and Oats Also Are Fractionally Down-Small Losses in Lard and Ribs, Pork Holding Steady.

CHICAGO, Jan. 23 .- There was an active

trade in wheat to-day, but after a higher

opening the market ruled easier, and the

down 16%c, and oats off 160%c. Provisions closed unchanged to 21/205c lower. There was a firm opening in wheat influenced by higher cables and the big export business of yesterday, and a new top notch was made on May at the start, the opening being a shade to 1/20%c higher at 81% 6824c. There was a good demand early and a large volume of business was transacted at the higher figures, but on rumors that the big holder was unloading there was a general scramble to get rid of long stuff and the price dropped to 80%c. At the low point a better demand developed and a reaction set in, the price rallying to 81%c. The market was very nervous the latter part of the session and was affected by the slightest influences. The close was easier, with May 1/20%c lower, at 81%c. Clearances of wheat and flour were equal to 142,400 bu. Primary receipts were 536,800 bu, compared with 412,500 a year ago. Minneapolis and Duluth reported receipts of 332 cars, which, with local receipts of 34 cars, one of contract, made a total of 366 cars, against 422 last week and 327 a year

Corn was traded in moderately and the undertone was easier, although the opening was firm on cables and on the strength in wheat. Continued selling by commission houses was responsible for the weaker feeling. May was a shade lower to a shade higher at the start, opening at 44%c to 45c, and sold between 44%c and 45c, the close being 1/6%c lower at 44%c. Receipts were 409 cars, one of contract. There was only a light trade in oats and uncertainty in the wheat situation and free

selling by some of the hig scalpers caused weakness, and the close was easy, with May 4@%c lower, at 36%@36%c after selling between 36@36%c and 36%c. Receipts were 22 cars. Provisions were strong early on lighter receipts of hogs and firm prices at the yards, but later, on commission house selling of lard and ribs, there was a reaction, and most of the early gain was lost. The close was about steady, with May pork un-

changed at \$16.82\(\frac{1}{2}\), lard 2\(\frac{1}{2}\)c lower at \$9.60, and ribs 2\(\frac{1}{2}\)65c lower at \$9.20(9.22\(\frac{1}{2}\).
